18&19

Solar Village

SOLAR VILLAGE WORKSHOP & PLANNING

Affordable Solar Housing, Growing Food & Community

Location: Banff, Alberta Cost: \$20/person

Dates: Sat/Sun, Feb 18-19, 2017, 9am-5pm each day

Solar Village will be conducting a workshop & planning session in Banff. Workshop topics to be covered include sustainable home design, straw bale construction, solar energy systems design & implementation, permaculture design, growing food organically, aquaponics, biogas digesters & solar village community examples. Planning will include group brainstorming on each topic, team based design creation/sharing & setting goals for the build of the first prototype in Banff. Details of the agenda & signup can be found on our website and Facebook page.
